São Paulo, Brazil. Open to remote work in Brazil, LATAM and worldwide. Available in 20 days.

PROFILE

L1/L2 Application Support Analyst at MC1. I troubleshoot mobile and web app incidents using logs and SQL queries, and I manage SLA-based tickets in Jira and ServiceNow. Before IT I worked in finance and team supervision; in 2024 I finished a Full Stack Master's program and moved into tech. I also build AI automations for repetitive tasks.

EXPERIENCE

Application Support Analyst LATAM

MC1 · São Paulo, Brazil | May 2025 – present

- L1/L2 support for consumer-goods mobile and web apps for Heineken, Bydsa and Grupo Herdez.
- Incident diagnosis through log analysis and SQL queries in PostgreSQL, MySQL and SQLite.
- SLA-driven ticket management in Jira Service Desk, weekly client follow-ups and new-feature testing with Engineering.

Sous-Chef and operations lead

Monky Bar Restaurant · Bouchemaine, France | Mar 2023 – Mar 2025

- Promoted from kitchen assistant to Sous-Chef in six months, running services of up to 200 covers, in French.
- Purchasing, inventory and supplier negotiation to reduce costs and waste.

Freelance technical analyst

Freelance · Buenos Aires, Argentina (remote) | Nov 2023 – Dec 2024

- SQL database optimization and bug fixing in web applications.
- Testing, user training and rollout of the Cruz del Sur management system (Scouts of Argentina).

Traffic Agents Operations Supervisor

Buenos Aires City Government | Nov 2016 – Feb 2023

- Led a team of 20 field agents: daily planning, incident handling and regulatory compliance.

Earlier: Sr. Finance Controller, ICRO Novartis Laboratory (2015 – 2016) · Administration and Credit Supervisor, Diseños JERY SRL (2009 – 2014)

PROJECTS

- **Ticket management dashboard (MC1):** Dashboard that brings Jira and ServiceNow tickets into one view, with volume, status and SLA per client. Node.js, Jira API, Chart.js.
- **AI automation:** Scheduled jobs that search and filter information and load it into a board with alerts.
- **Rutina y Plato:** App with an AI coach (Gemini) to follow nutrition and training routines. Spanish and Portuguese, used by testers.
- **B2B Marketplace and SaaS:** Sales platforms with real-time sync. React, Next.js, Node.js, PostgreSQL.

TOOLBOX

Support: Jira Service Desk, ServiceNow, logs and troubleshooting, SLA management, functional testing, user training
Data: SQL (PostgreSQL, MySQL, SQLite), Power BI, advanced Excel, Chart.js, SheetJS
